Hey guys, I found some old forum posts that were links to a full PDF of the E30 technical maintenance manual (one BMW technicians use). None of the downloads seemed to work though. Does anyone have an original E30 technology/service guide? I would be ready to re-produce them as soon as possible. Thank you! It's a huge file (almost 500 megs) but worth it if you make your own toolkit! This is a BMW Tech Guide, not a Bentley or any other aftermarket thing.
